

software for contract life-cycle management (CLM)

software for contract life-cycle management (CLM)

open windows contracts™

For contracting to succeed, you need positive, and pro-active management of the terms and conditions of your agreements.

Better contract management through open windows CLM software lowers the risk of non-compliance, raises revenues and decreases expenditure.

You can only take pre-emptive action if you are aware of the trigger points and compliance items contained within your agreements.

open windows contracts-NOW™ 'essential contract management'

Contracts-NOW provides core contract register functionality in a simple to use, standalone application.

Features of contracts-NOW:

- ✓ **simple to use – zero training**
- ✓ **central contract data repository**
- ✓ **pre-emptive email alerts for key milestones**
- ✓ **contract document repository**
- ✓ **supplier / customer repository**
- ✓ **reporting directly into MS Excel**
- ✓ **data import/export facilities**

upgrade to:

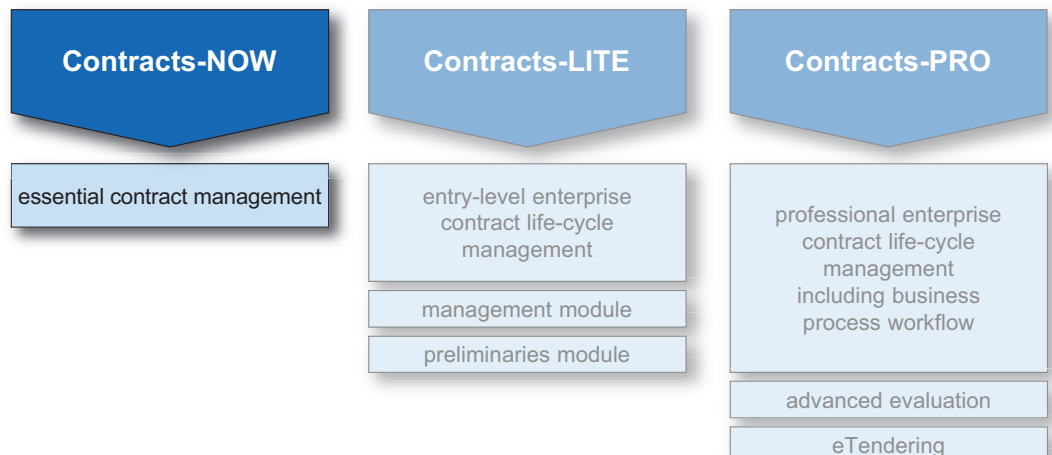

- **contracts-LITE**
- **contracts-LITE+MGMT**
- **contracts-LITE+PRELIM**
- **contracts-PRO**

Provided as either an on-demand or in-house solution, contracts-NOW is a quick and easy way for organisations of any size to start to collate their key contract data & associated documentation. A simple, easy to use design promotes immediate take-up and enables even the most infrequent user to quickly locate and report on their contract information.

Start managing your contracts, NOW !
